

# FEEDING FOR A PURPOSE

Ignite their defenses and optimize growth with all-natural, proven ingredients. MasterHand Milling's Ignite® Stress Pre-Mix and Ignite Stress Pellet are formulated to strengthen natural immunity, stimulate feed intake, and support the health of high-risk calves and newly received feedlot cattle. Backed by research, Ignite offers a proactive solution to reduce reliance on antibiotics and drive performance naturally. Fueling growth, resilience, and profitability — that's feeding for a purpose.

## TWO POWERFUL PRODUCTS, NO VFD REQUIRED

### IGNITE STRESS PRE-MIX

A unique, concentrated blend of four research-backed additives, engineered in powder form for seamless integration into custom feed programs.

### IGNITE STRESS PELLETT

Incorporates the Ignite Stress Pre-Mix into a highly palatable 100% distillers dried grains (DDG) base, delivering high-protein, high-energy nutrition in an easy-to-feed 1/4" pellet.

### STRESS PELLETT

#### GUARANTEED ANALYSIS:

|                         |       |
|-------------------------|-------|
| Crude Protein, min %    | 28.00 |
| Crude Fiber, max %      | 7.0   |
| Crude Fat, min %        | 6.00  |
| Calcium (Ca), min %     | 0.70  |
| Calcium (Ca), max %     | 1.20  |
| Phosphorus (P), min %   | 0.70  |
| Magnesium (Mg), min %   | 0.30  |
| Potassium (K), min %    | 1.20  |
| Salt (NaCl), min %      | 0.10  |
| Salt (NaCl), max %      | 0.40  |
| Zinc (Zn), min ppm      | 420   |
| Iron (Fe), min ppm      | 190   |
| Manganese (Mn), min ppm | 280   |
| Copper (Cu), min ppm    | 140   |
| Cobalt (Co), min ppm    | 16    |

#### INGREDIENTS:

Processed Grain By-Products, Calcium Carbonate, Natural Flavors, Silicon Dioxide, Sodium Hexametaphosphate, Roughage Products, Sodium Chloride, Potassium Chloride, Dried Aspergillus Oryzae Fermentation Product, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Copper Amino Acid Complex, Glucoheptonate.

#### FEEDING DIRECTIONS

Feed at the rate of 2 lbs. per head per day for up to 28 days. Always provide fresh water and adequate forage.

#### CAUTION: Follow label directions.

The addition to feeds of higher levels of this product containing selenium is not permitted.

#### MANUFACTURED BY:

MasterHand Milling  
1502 Walnut St • Lexington, NE 68850

2-1-2025

Net Weight 50 lbs. (22.67 Kg)

- 
**NATURAL IMMUNITY SUPPORT**  
 Reduces reliance on antibiotics by enhancing immune response.
- 
**QUICKEN RECOVERY**  
 Helps cattle recover faster from periods of stress and illness.
- 
**STIMULATE FEED INTAKE**  
 Encourages cattle to eat sooner and increases feed intake over time.
- 
**IMPROVE DIGESTION**  
 Boosts rumen function for better nutrient absorption and efficiency.
- 
**PROMOTE GROWTH**  
 Directs energy to promote frame and muscle development.
- 
**PROACTIVE MANAGEMENT**  
 Supports natural immunity for fewer interventions, saving time and vet costs.

## PROVEN INGREDIENTS, NATURAL NUTRITION, SUPERIOR PERFORMANCE

### THERMOCAL®

Highly soluble and up to 10x more absorbable than traditional feed-grade calcium.

- Neutralizes acid and balances rumen pH
- Supports digestion and feed efficiency
- Promotes maximum nutrient absorption

### ZINPRO AVAILA 4®

Organic chelated mineral pack with unique amino acids for superior absorption.

- Reduces morbidity by 21%
- 20% fewer sick pulls
- Increases dry matter intake & daily gain

### INTEGRIVIX®

A combination of organic compounds that stimulates intake and immune response.

- Promotes feed intake through sense of smell
- Supports immune function against respiratory viruses and bacteria
- Promotes gut health and muscle development

### AMAFERM®

A yeast-based prebiotic that enhances growth and activity of rumen microbes.

- Increases feed intake and efficiency
- Stimulates enzyme activity to stabilize rumen pH and boost nutrient absorption
- Reduces acidosis, bloat and morbidity.

## FEEDING RECOMMENDATIONS

| IGNITE STRESS PRE-MIX   | IGNITE STRESS PELLET   |
|---|--|
| <b>Targeted consumption 1.5 oz</b><br>Incorporated in existing ration                     | <b>2 lbs per head per day</b><br>Top dress existing ration                                 |
| AT RECEIVING  | POST-ILLNESS   |
| <b>Feed for 28 days</b><br>to reduce stress and maintain health during transition period. | <b>Feed for 7-14 days</b><br>after visible symptoms to support recovery & reduce retreats. |
